# SPRING BIRD COUNT—1975

HARRY E. LeGRAND JR.

Participants on the 1975 Spring Bird Count in the Carolinas recorded 262 species, only four species shy of the 266 species found in 1972. Twenty-five counts were taken this spring, an improvement of one over 1974, and the addition of Hilton Head Island, S.C., after a several-year layoff in spring, was most beneficial to the Spring Bird Count. Again the Outer Banks of North Carolina had no count; a census in this rich waterbird region might have sent the 1975 species total past the 1972 record.

Morehead City's all-time best (176 species), achieved with only six field parties, led all counts in total species. Wilmington also did quite well, as their 174 species attest, and Charleston followed with 166 species. Raleigh (156 species) and Winston-Salem (151) dominated the inland counts, but several other counts in central North Carolina had record-breaking species totals. Over 118,000 individual birds were tallied on the 1975 Count; Morehead City led with 14,000+ individuals.

A list compiled by Eloise Potter shows that through 1974, 304 species have been seen on count days on the Spring Counts, plus two hybrids and four species seen only during count periods. This spring's counts brought the species total to 307, as *Long-billed Curlew* (Morehead City), *Roseate Tern* (Hilton Head), and *House Finch* (Charlotte) were newcomers to the list. The two most exciting birds were seen at Clemson—a count period *Franklin's Gull* (first record for South Carolina) and a count day *Eared Grebe* (third state record, but surprisingly not new to the Spring Count list). Other outstanding finds were an unprecedented 11 *Fulvous Tree Ducks* at Raleigh, a rare and late *Red-necked Grebe* at Charleston, five *Glossy Ibis* at Clemson during count period, a *Gray Kingbird* at Morehead City, a *Yellow-bellied Flycatcher* at Wilmington, and three *Black Rails* at Morehead City and two during count period at Clemson. Noteworthy count totals were 1,155 *Whimbrels* at Charleston and 1,425 *Least Terns* at Morehead City. Also noteworthy were the 28 *Swainson's Warblers* reported on nine counts and the 59 *Blue-winged Warblers* on the counts, with an astonishing 21 at Chapel Hill! Raleigh had a number of impressive species totals, and the counts of several of the breeding warblers there were mind-boggling. Two low counts of note were the alarming 66 *Loggerhead Shrikes* (only Charleston reported them in double figures) and the five *Pine Siskins*, as compared to the 1,067 reported on all counts in the spring of 1974. Readers should see the Compilers' Comments for further details on unusual species.

The weather during the count period generally was favorable for conducting a good count. Unfortunately, a heavy day-long rain drenched the western half of the Carolinas on 3 May, and those counts from Charlotte westward on that date were severely hampered. In fact, Clemson postponed its count by three days when rain began at 07:30. Because most of the counts from Charlotte westward were already short of active and experienced observers, species totals from these counts fell far below those of the high-powered counts in central North Carolina. Readers should not be deceived into thinking that practically all species of songbirds are more common in the eastern piedmont than in the western piedmont and mountains, for certainly this is not the case in most species. Hopefully, with good weather next spring and more thorough coverage, these counts (and all counts with less than 100 species) will be less embarrassed by the coastal counts and those in central North Carolina.

The most difficult part of the count summary to write is that concerned with the compiling of the counts and the reporting of unusual species without details. As usual, compilation of the counts ranged from excellent to poor. As a general rule, the more thorough the coverage and the greater the number of species on a given count, the better the documentation of rare and unusual species for the count. Special commendations to compilers on the 1975 Spring Count go to John Fussell III (two pages of details for unusual species on the Morehead City count), Mark Huff and John Horn (three pages of details for the Durham count), Merrill Lynch (three pages of details

for the Roanoke Rapids count), and especially to Ramona Snively and Fran Baldwin (six pages of details for the Winston-Salem count, in addition to a page giving the addresses of observers of unusual species). It might be of interest to readers, count participants, and compilers that the details for the above cited counts were *handwritten*. It is obvious that people are better able to document a rare sighting thoroughly and convincingly by writing out the pertinent information rather than by typing the details.

Because no details were submitted for several unusual species reported on various counts, I deleted the following from counts where they are rare if not casual: a *Common Merganser*, six *Long-billed Dowitchers*, an almost certainly incorrect 39 *Ringed Turtle Doves*, a *Warbling Vireo*, and a *Fox Sparrow*. I also reversed the Bank and Rough-winged Swallow totals for one count, as a number of Banks and no Rough-wings were reported, the reversal of what one would expect at almost all localities in the Carolinas. A number of other species were accepted with marginally convincing details. Observers and compilers are reminded *not* to submit details for rare sightings in the form that they are published in Compilers' Comments—these comments are *my* summaries of the hopefully full and convincing details reported by the compilers. The compilers should double check the lists they submit to make sure that every rare species has accompanying details that will leave no doubt in my mind that the species was correctly identified.

## COMPILERS' COMMENTS

### COAST

MOREHEAD CITY, N.C. (Center: 0.7 miles NW of Crab Point in Newport River).

26 April. The three *Black Rails* (Compiler) were giving the *kik-kik-kurr* call at two locations north of the North River bridge at approximately 04:30. The *Long-billed Curlew* at Bird Shoal was almost certainly the same bird seen there on the Christmas count, as it was seen on two occasions in mid-April and was found on count day by T.L. Quay, Wayne Irvin, Don McCrimmon, Mal Whitsett, and John Wright. *Gray Kingbird* (John Fussell II) was seen just north of Morehead City on a telephone wire only 3 feet from an Eastern Kingbird; all field marks of the former were described, especially the very noticeably longer and heavier bill of the Gray Kingbird. *Redhead* (Allyn Powell, David Whitehurst) was a male at North River. The early *White-rumped Sandpiper*, remarkably high count of 52 *Long-billed Dowitchers* (identified by voice), nine *Stilt Sandpipers*, and the two *Black-necked Stilts* were seen by the Compiler et al. at the North River Marsh. Two more *Stilt Sandpipers* (R.J. Hader) were at Bird Shoal. Most of the *Least Terns* were seen feeding over Beaufort Inlet at sunset (Quay). Hader heard the *Whip-poor-will* at Fort Macon. *Black-throated Blue Warbler* (Ray Winstead) is a rare spring migrant in this area. Noteworthy high counts were the 60 *White Ibis* (continues to increase), 12 *Killdeers*, 10 *American Woodcocks*, and 767 *Least Sandpipers*. The 28 species of shorebirds are probably the most ever for a bird count in the Carolinas.—JOHN FUSSELL III, Box 520, Morehead City, N.C. 28557.

WILMINGTON, N.C. (center: Monkey Junction).

26 April. *Yellow-bellied Flycatcher* (Greg Massey) was in a deciduous swamp; voice and color were compared with Acadian Flycatchers. The yellowish wash on the sides and especially the *chu-wee* call were distinctive. Jay Carter saw the *Black-billed Cuckoo* and *Blue-winged Warbler* at Orton Plantation; both birds were described in detail.—FRANCES NEEDHAM, Box 8207, Wrightsville Beach, N.C. 28480.

CHARLESTON, S.C. (center: 14 miles NE of Mt. Pleasant and 0.5 mile E of US 17).

27 April. The *Red-necked Grebe* was well studied for about 10 minutes near the boat landing at Bull's Island; observers were Frederick Probst, Sertorius Barber, E.B. Chamberlain, Calvin Clyde, T.F. Hassell, and Jay Shuler. Perry Nugent and Joe Hall heard the three *Chestnut-sided* and two *Nashville Warblers* in I'on Swamp. The birds responded to taped recordings of their respective songs but could not be seen; they

observers are quite familiar with both species. The *Wilson's Warbler* (David Lourie, Mary Reed) was a male; black cap, bright yellow underparts, and absence of wing-bars were seen.—JULIAN R. HARRISON, Biology Department, College of Charleston, Charleston, S.C. 29401.

HILTON HEAD ISLAND, S.C. (center: [not described; Spanish Wells Landing?—HL]).

17 April. The two *Roseate Terns* were closely observed by Stuart Roesler, James Baldwin, and the Compiler. The terns were feeding on mudflats in Calibogue Sound; black bill and deeply forked tail were seen, and the darker primaries of a Common Tern with them were also noted.—CORNELIA S. CHAPIN, 31 Baynard Park Road, Hilton Head Island, S.C. 29928.

#### COASTAL PLAIN

BEAUFORT COUNTY, N.C. (center: entrance of Upper Goose Creek into Pamlico River).

3 May. The *Swainson's Thrush* (Elizabeth Ball, Ethel Barkley) seen closely on 4 May was a first record for the area. *Swainson's Warbler* (Compiler, Bill Baxter, Sue and Ecky Meadows) was heard singing.—GERALDINE COX, Route 1, Box 151A, Merritt, N.C. 28556.

PAMLICO COUNTY, N.C. (center: in Florence at intersection of 1324 and 1329).

26 April. *Purple Gallinules* (Margaret Conderman, Ecky Meadows) were with Common Gallinules. *Swainson's Warblers* were in two locations and were heard by both parties; two birds were seen by the Meadows-Conderman party.—GERALDINE COX, address as above.

DILLON COUNTY, S.C. (center: Dillon).

1 May. The *Scarlet Tanager* (Compiler) was noteworthy for the area.—JOHN H. WILSON, Box 535, Dillon, S.C. 29536.

COLUMBIA, S.C. (center: intersection of Gill's Creek and Bluff Road).

26 April. James Fowles and the Compiler observed the *Connecticut Warbler* in a deciduous river swamp; the gray hood and eye ring were seen. *Blue-winged Warbler* (Glen Smith, Russell Green) was well seen along a hedgerow. *Bobolink* was new to the count, though the species is seen most every spring.—GILBERT BRISTOW, 2921 Blossom Street, Columbia, S.C. 29205.

SOUTHERN PINES, N.C. (center: 1 mile NE of Skyline).

29 April. Four *Double-crested Cormorants* (all field observers) were at Lake Surf, and one was at Thagard's Lake. All field observers also saw the immature *Herring Gulls* and the *Great Egret* seen in flight at Thagard's Lake. Dana Carter carefully observed the *Yellow-crowned Night Heron*, a first record for the area. The Compiler recorded the full-plumaged male *Cape May Warbler* and the two *Bachman's Sparrows*; the latter were in open pine woods at Fort Bragg, where the species is locally fairly common.—J.H. CARTER III, P.O. Box 891, Southern Pines, N.C. 28387.

ROANOKE RAPIDS, N.C. (center: Weldon).

4 May. Compiler saw the *Double-crested Cormorants*, *Red-breasted Mergansers*, *Bonaparte's Gulls*, *Common Tern*, and *Caspian Tern* at Roanoke Rapids Lake. The dark primaries of the *Common Tern* were seen well. The *Little Blue Heron* (Ken and Mike Knapp) and the *American Bittern* (Compiler) were at Oconeechee Neck. Compiler noted the red frontal plate and white stripe on the flank of the *Common Gallinule* at Mush Island Beaverpond. *Barn Owl* (Keith Fielder, Ray Chandler) flew across the road in front of the observers' car just before dawn; this is the first record for the count circle area. Two pairs of *Cliff Swallows* were seen by the Compiler at the NC 48 bridge over the Roanoke River, where a pair nested for the first time last

year. All field marks were seen on the singing *Tennessee Warbler* (Fielder, Chandler) along the Roanoke River at Burgwynn Farm. Only one *Swainson's Warbler* could be found in Occoneechee Neck, but noteworthy high counts were 25 *Cerulean Warblers*, 46 *Kentucky Warblers*, 369 *Bobolinks*, and 11 *White-crowned Sparrows*.—J. MERRILL LYNCH, 539 Henry Street, Roanoke Rapids, N.C. 27870.

## PIEDMONT

HENDERSON, N.C. (center: [not described—HL]).

26 April. [The count form was only partly completed. I hope future counts will be better organized and conducted.—HL]—A.W. BACHMAN, 111 Jennette Ave., Henderson, N.C. 27536.

RALEIGH, N.C. (center: Norfolk Southern RR crossing on Lake Wheeler Road).

3 May. This year's count probably was the most successful we have ever held. The 11 *Fulvous Tree Ducks* were present in a pasture at Greenview Farm from 1 to 8 May and were seen at close range by almost all observers on the count. *Greater Scaup* (Ken Knapp), seen at approximately 20 feet, apparently was unable to fly. The *Black-billed Cuckoo* (Ann Brice, Gary McAlister) was studied well at the Dorothea Dix farm. Josh Lee observed the *Warbling Vireo* at eye level at about 20 feet; vireo bill, white eye stripe, and otherwise grayish plumage were noted. Black legs and chunky bill of the *Semipalmated Sandpipers* (Lee) were seen; birds were at the N.C. State University Dairy Pond.—R.J. HADER, 3313 Cheswick Drive, Raleigh, N.C. 27609.

DURHAM, N.C. (center: 1 mile N and 1 mile E of junction of Eno River and US 501).

19 April. Durham held a very early count this year in order to census early migrants, which are usually ignored by most count periods. Single *Upland Sandpipers* were found by Robert Ridgely and Norman Budnitz; both sightings were well documented. Ridgely also saw the *Greater Yellowlegs*, *Bank Swallow*, *Short-billed Marsh Wren*, *Water Pipit*, and several other early arrivals in a rather newly-discovered "hot spot" at the Flat River bottoms. [Ridgely provided two pages of excellent and convincing details for his many noteworthy sightings.—HL] Budnitz observed the *Cattle Egrets*, and John Horn saw the adult *Little Blue Heron*. *Blue-winged Warbler* (Pat Boyd), *Marsh Hawk* (Mark Huff), and *Northern Waterthrush* (Ridgely, Budnitz) were among a number of other noteworthy species seen and well described on the count. [This was an interesting "early" count, held 2 weeks earlier than neighboring counts, and readers should keep this fact in mind when comparing species totals between Durham and other counts.—HL]—MARK HUFF, School of Forestry, and JOHN HORN, Botany Department, both of Duke University, Durham, N.C. 27706.

CHAPEL HILL, N.C. (center: intersection of Franklin and Columbia Streets).

4 May. The main passage of transients seemed to occur a week before our count date, and so the record-breaking species count (134) and number of individuals, nearly double our typical counts, apparently represents good coverage by alert field observers.—JAMES O. PULLMAN, Route 6, Box 149, Chapel Hill, N.C. 27514.

GREENSBORO, N.C. (center: transmitter tower of Radio Station WBIG).

3 May. The wet and cool weather resulted in a low count on vultures and hawks. Probably as a result of the same influences, however, the warbler count was high this year. Charlotte Dawley observed the *Common Merganser*. [The freshwater location of the sighting was listed as one of the criteria for identification; but the Red-breasted Merganser is the more common of the two large species of mergansers on inland lakes in the Carolinas, and thus the freshwater habitat cannot be used as an aid in identification.—HL] Five parties reported *White-crowned Sparrows*, indicating that they may be somewhat less local than in the past.—DONALD ALLEN, 2611 David Caldwell Drive, Greensboro, N.C. 27408.

WINSTON-SALEM, N.C. (center: intersection of I-40 and Silas Creek Parkway).

3 May. Immature *Yellow-crowned Night Heron* was studied in marshes at Reynolda where it had been seen daily since 19 April (Compilers, Royce Hough). Compilers also reported the *Least Bittern* on several occasions during count period at a pond in Bethania. Fifteen *Osprey* sightings in the area during count period was an unusually large number. Although rare for the area, *Common Gallinules* were seen on count day at three locations (Fran Baldwin, Gardner Gidley, Paul Spain). Large numbers of shorebirds were at a sewage treatment plant during count period, noteworthy peak counts being 37 *Solitary Sandpipers*, 10 *Pectoral Sandpipers*, 50 *Least Sandpipers*, 35 *Greater Yellowlegs*, 15 *Lesser Yellowlegs*, 2 *Semipalmated Sandpipers*, 2 *Western Sandpipers*, and an amazing 12 *Dunlins*. *Bonaparte's Gull* (Royce Weatherly, Gary Adams) was in winter plumage at Salem Lake. *Yellow-bellied* and *Least Flycatchers* were each reported on two dates before the count; songs of both species were heard to confirm identification. *Yellow-bellied Sapsucker*, *Red-breasted Nuthatch*, *Brown Creeper*, *Winter Wren*, and *Hermit Thrush* were late-lingering winter residents. *Long-billed Marsh Wrens* (Wayne Irvin, Jim Orgain) were at the location where one was found on the Christmas count. Charles Frost observed all field marks on the *Philadelphia Vireo* on 30 April. Male *Golden-winged Warbler* and the *Tennessee Warbler* were seen well by many birders at Reynolda. *Nashville Warblers* were recorded on six occasions during the count period, an unusually high number. Male *Brewer's Blackbird* was studied carefully by the Compilers on 22 and 29 April, and compared with grackles, Rusty Blackbirds, and Red-winged Blackbirds. The three *Dark-eyed Juncos* (Cynthia Olsen, Gardner and Margaret Gidley) were seen in Clemmons. [The exceptionally thorough details submitted by the Compilers included notes on 37 species that were late or rare on the count day or during count period.—HL]—RAMONA R. SNAVELY, 115 Plymouth Avenue, Winston-Salem, N.C. 27104 and FRAN M. BALDWIN, 1030 Englewood Drive, Winston-Salem, N.C. 27106.

IREDELL COUNTY, N.C. (center: South Yadkin River Bridge on NC 115).

4 May. The count was held a week earlier than usual. As a result, kinglets, White-throated Sparrows, and other winter residents were still present, but we were too early for the peak of the warbler migration. *Broad-winged Hawks*, *Indigo Buntings*, and *Blue Grosbeaks* were unusually numerous this spring. The *Pintails* and *Sora* were seen by Kenny and Ronald Alexander; the latter observer found the *Least Flycatcher*. The Compiler saw the *Canada Warbler*.—JANE S. MULLEN, 908 West Front Street, Statesville, N.C. 28677.

CHARLOTTE, N.C. (center: intersection of South Boulevard and Woodlawn Road).

3 May. Total numbers of species and individuals were low for the spring count, as rain throughout most of the day prevented adequate coverage of most areas. Most of the waterfowl and shorebirds were seen at Creech's Pond and on the Catawba River. *Red-breasted Mergansers* (Compiler), *Tree Swallows* (Flo Cobey), and *White-crowned Sparrows* (Jack Hamilton) are seldom reported in this area. The *Pileated Woodpecker* (Robert Schmitt), rare in Charlotte and Mecklenburg County, was seen leaving a nest cavity located within the city limits. *House Finches* (Elizabeth Clarkson), regular winter visitors at feeders in recent years, were still present on count day. One pair stayed in Elizabeth Clarkson's yard during the summer of 1974.—DANIEL E. READ JR., 1101 Rosewood Circle, Charlotte, N.C. 28211.

GREENVILLE, S.C. (center: intersection of 29 and 291).

3 May.—ROSA LEE HARDIN, Cleveland, S.C. 29635.

CLEMSON, S.C. (center: 3.5 miles SW of intersection of US 76 and SC 93 in Clemson).

6 May. A heavy northbound migration on the evening of 5 May removed a large percentage of the migrants from the area; thus, even with much better coverage of the count circle this spring over last spring, we recorded eight fewer species. *Eared Grebe*, in breeding plumage on a sewage pond at Pendleton, was originally identified

as a Horned Grebe until the correct identity was determined on 10 May by the Compiler. The Compiler also saw the breeding-plumaged *Franklin's Gull* on 8 May near Townville. *Black Rails* were recorded on two occasions during the count period. The Compiler has submitted full details for these three species as field notes in *Chat*. *Connecticut Warbler* was a non-singing male seen at close range by Sid Gauthreaux in his yard; slate-colored hood and complete, white eye ring were conspicuous. *Dickcissel* (Compiler) was a singing male on territory (seen at same location twice later in May) near Pendleton. The five *Glossy Ibis* were seen by Gaston Gage, the Compiler, and Gauthreaux on several occasions before count day. *Philadelphia Vireo* (Adair Tedards and party) on 3 May was detected by song and confirmed by its yellowish underparts. A number of other rare sightings were made by the Compiler during count period; information on these records has been submitted for publication in *Chat* as "Briefs for the Files."—HARRY E. LeGRAND JR., Department of Zoology, Clemson University, Clemson, S.C. 29631.

ELKIN-RONDA, N.C. (center: 3 miles N of Elkin at intersection of US 21 and US 21 Business).

26 April. *Short-billed Marsh Wren* (Jerry and Bobby Tysinger) was seen at 25 feet for about 5 minutes; absence of eye stripe, presence of stripes on the crown and back were noted.—LIN HENDREN, P. O. Box 148, Elkin, N.C. 28621.

CALDWELL COUNTY, N.C. (center: Lenoir).

5 May.—HELEN MYERS, 310 Beall Street NW, Lenoir, N.C. 28645.

#### MOUNTAINS

YANCEY-McDOWELL COUNTIES, N.C. (center: Buck Creek Gap).

10 May.—JOYCE E. HALL, Route 8, Box 1136, Asheville, N.C. 28806.

BUNCOMBE COUNTY, N.C. (center: intersection of US 70 and SR 2740 in Swannanoa).

3 May. *Lesser Scaup* (Chris Rustay), apparently injured or unable to fly, was feeding with several domestic ducks on Kenilworth Lake. Two *Ospreys* and four *Common Loons* were seen by many observers, including the Compiler, at Burnett Reservoir. *Common Gallinule* (Rustay) was seen at close range at the headwaters of Kenilworth Lake. The four adult *Ring-billed Gulls* were seen by many birders in a plowed field on the Warren Wilson College grounds; a first spring count record. Rustay observed the *Connecticut Warblers* and the *Wilson's Warblers*.—ROBERT C. RUIZ, 300 Wilson Avenue, Swannanoa, N.C. 28778.

BREVARD, N.C. (center: 5 miles SE of Brevard at Rich Mountain Lookout Tower).

3 May. Hardly worse weather could be envisioned (heavy fog and rain much of the day), yet this was by far the best of our three counts, partly because of increased levels of experience of our counters. Lydia and Paul Barrett heard the *Olive-sided Flycatcher* on many dates in April and May, and observed the bird on two occasions this spring. [Is this species breeding in the Sherwood Forest area? If so, it would be quite noteworthy, in view of the scarcity of present-day summer records in the North Carolina mountains and the fairly low elevation of the observation.—HL] *Ospreys* were seen a number of times in different places during the week before the count (Compiler, Susan Holland), and the late *Marsh Hawk* was seen by Genevieve Lilly and Bill Simpkin. Robert Starr reported the *Black-billed Cuckoo* and *Cerulean Warbler*. *Cape May Warblers* were "everywhere" throughout the count period. Count period *Fox Sparrow* (Helen Pearch) was first noted by its loud scratching and then seen well. *Tennessee Warblers* were observed separately by the Compiler and Helen Pearch. The *Mallards* are nesting in Sherwood Forest (Kenneth Roberts). The late *Bufflehead* was reported by Gaylord Lyon. *Rusty Blackbirds* (Hervey Roberts) were

found in two locations.—WALTER C. HOLLAND JR., 290 Maple Street, Brevard, N.C. 28712.

## FIELD OBSERVERS

MOREHEAD CITY, N.C.: John Fussell II, John Fussell III, R.J. Hader, Wayne Irvin, Chuck and Genevieve Manooch, Don McCrimmon, Allyn and Joanne Powell, T.L. Quay, David Whitehurst, Mal Whitsett, Ray Winstead, John Wright.

WILMINGTON, N.C.: Katherine Alexander, Bobby Austin, Robert S. Brown, Jay Carter, Frank Chapman, Dot Earle, John Hardwick, Kitty Kosh, Harry Latimer, Greg Massey, Polly Mebane, Ann Nicholson, James Parnell, Marty Pridgen, Pete Roberts, Marge Senninger, Roger Stone, Barry Thomas, Mary Urich, Charlotte Waggett.

CHARLESTON, S.C.: Sertorius Barber, Ted Beckett, Dan Brooks, Robert Brown, Ernie Bustos, E. Burnham Chamberlain, David Chamberlain, Norman Chamberlain, Calvin Clyde, Robert Dunlap, Judy Enenstein, Dennis Forsythe, Joseph Hall, Andy and Julian Harrison, T. Fleetwood Hassell, Bobbin and David Huff, Mike Hull, Carol Kravitz, Curt Laffin, S.C. Langston, Pete Laurie, David Lourie, Holland and Caroline Mills, Teddy Muckenfuss, Perry Nugent, Frederick Probst, Olgerts Puravs, John and Mary Reed, Tom Reeves, Jerry and Susan Roche, Jay Shuler, Ralph Tiner.

HILTON HEAD ISLAND, S.C.: James Baldwin, Cornelia Chapin, Alice Chapman, Alva Cunningham, Aden and Margaret Gokay, David and Virginia Harrall, Dorothy Hitchcock, Don and Louise LaCosse, Caroline Newhall, Jeanette Nordham, Helene Parry, Lois Pitcairn, Stuart Roesler, Robert and Elizabeth Whitney.

BEAUFORT COUNTY, N.C.: Jeanette Bachman, Elizabeth Ball, Ethel Barkley, Bill Baxter, Marguerite Baxter, Nat Baxter, Margaret Conderman, Geraldine Cox, James McLaurin, Mary McLaurin, Ecky Meadows, Sue Meadows, Louise Satterthwaite.

PAMLICO COUNTY, N.C.: Elizabeth Ball, Margaret Conderman, Geraldine Cox, Ecky Meadows, Sue Meadows.

DILLON COUNTY, S.C.: Marion McCallum, John H. Wilson.

COLUMBIA, S.C.: Gilbert Bristow, Mr. and Mrs. James Fowles, Mrs. Renard Gravitt, Russell Green, Andrew Groat, Isabell Quattlebaum, Kay Sisson, Glen Smith, Lou and Jack Stewart, Isabell Williamson.

SOUTHERN PINES, N.C.: J. H. Carter III, John Hardwick, James Parnell, Roger Stone.

ROANOKE RAPIDS, N.C.: Ray Chandler, Ricky Davis, Keith Fielder, Ken and Mike Knapp, J. Merrill Lynch, Paul McQuarry, Eloise Potter, John and Paula Wright.

HENDERSON, N.C.: Mr. and Mrs. A.W. Bachman, Mrs. Sam Harris, Mrs. Eliza Parham, Dr. and Mrs. Paul Stewart, Mrs. J.W. Williams.

RALEIGH, N.C.: Jill Berninger, Ann Brice, Mike Browne, Nelson Chadwick, Ricky Davis, Jean Donaldson, R.J. Hader, Jeanne, Larry, and Ray Halsey, Margaret Hobgood, Tom Howard, Bobby Kluttz, David, Ken, and Mike Knapp, Josh Lee, Bill Lisowsky, Merrill Lynch, Joe Marlin, Chris Marsh, Jim Mulholland, Eloise Potter, Barbara Pugh, Dick Repasky, David Whitehurst, Gail Whitehurst, Ray Winstead, John and Paula Wright.

DURHAM, N.C.: Stanley Alford, Pat Boyd, David Brane, Norman Budnitz, Angelo Capparella III, Caroline Carter, Robin Carter, Louise Crumpacker, Oliver Ferguson, Bridget Holdship, Stephen Holdship, John Horn, Mark Huff, Alexander Hull, Ken Lind, Judy Loveless, Lyn Loveless, Thomas Martin, David Morris, Lance Peacock, Robert Ridgely, Deborah Woodcock.

CHAPEL HILL, N.C.: Stanley Alford, Charles Blake, Annie-Leigh and Robert Broughton, Angelo Capparella III, Caroline Carter, Derb Carter, James Devereux, Charles and Oliver Ferguson, Francis Fuller, Eric, Jasper, and Lois Garner, Kitty and Ralph Harding, Paul Lancaster, Rusty Latta, Trudy London, David, Jim, Owen, and Pat McConnell, Deane McGinnis, Monica Neese,

Charles and Ella Newell, Johnnie Payne, Lance Peacock, James Pullman, Barbara Roth, Margaret and Robert Shape, Paul Stewart, Wilma Stuart, Elizabeth and Robert Teulings, Bill and Margaret Wagner, Adelaide Walters.

GREENSBORO, N.C.: Carolyn Allen, Donald Allen, Rose Avery, Virginia Bell, Helen Black, Edwin Blitch III, Nancy Blount, Inez Coldwell, Charlotte Dawley, Frank Fish, Mildred Fish, Dot Garrett, Fred Garrett, Ellen Knight, Ben Lambeth, James Mattocks, Jean McCoy, Ethel McNairy, Ida Mitchell, Jean Murdick, Elizabeth Ogburn, Eleanor Patterson, Emma Leah Ferrett, Etta Schiffman, George Smith, Irene Smyre, Thomas Street, Marjorie Tays, William Tays, Maude Williams, Helen Zuk.

WINSTON-SALEM, N.C.: Gary Adams, Fran Baldwin, Kay Bergey, Bill Boice, Zack Bynum, John Carter, Peggy Cochrane, Jim and Pat Culbertson, Charles Frost, Gardner and Margaret Gidley, Bill Hammond, Fred Hill, Ruth Hill, Kevin Hints, Bert Hollifield, Jeane Hopson, Royce Hough, Wayne Irvin, Hank and Kay Kudlinski, Dave and Judy Kurtz, Janice Levitt, Connie Lincke, Ann Listokin, Mary McGehee, A. Hewson Michie, Linda Moore, Sue Moore, George and Margaret Morgan, Joe Neely, Bob Odear, Cynthia and Mary Olsen, Jim Orgain, Ogegeco Ottoman, Barbara Page, Ann Pollard, Anita Shabah, Jackie Shelton, Dot and Jerry Shiffert, David Shuford, Ramona Snaveley, Paul Spain, Edie Spinks, Pete Tate, Royce Weatherly, Bob Witherington.

IREDELL COUNTY, N.C.: Kenny and Ronald Alexander, Sam and Sandra Cathey, Lois Goforth, Dwayne Hayes, Larry and Sandra Marlin, Bob and Dick Mize, Jane Mullen.

CHARLOTTE, N.C.: Janice Clark, Flo Cobey, Helen Coley, Catherine Cornwell, Greg Cornwell, Lucius Gage, Jack Hamilton, David Hawkins, Gail Kerr, Becky Norwood, Joe Norwood, Katherine Peeler, Shuford Peeler, Daniel Read, Don Roussar, Ruth Rowe, Robert Schmitt, Tom Stone, Ellen Wilkerson.

GREENVILLE, S.C.: Ruth Gilreath, Rosa Lee Hardin, Gladys Hart, Lillie Hart, Ellanore McAdoo, May Puett, Gary Worthington.

CLEMSON, S.C.: Bill Alexander, J.P. Crouch, Sid Gauthreaux, Paul Hamel, Clay Hodges, Harry LeGrand, Frank Moore, Kerry Reese. Charlie Gage, Gaston Gage, Joan Geiger, Roland Geiger, Larry Luckett, Vivian Smith, and Adair Tedards participated on a rain-postponed count on 3 May, but were unable to help on the rescheduled count.

ELKIN-RONDA, N.C.: Lin Hendren, Tom Hendren, Lewis Petree, Bill Roth, Cissie Roth, W.P. Smith, Bobby Tysinger, Jerry Tysinger.

CALDWELL COUNTY, N.C.: Margaret Harper, Clara Manchester, E.M. Manchester, Helen Myers, Sarah Parker, Ann Whisnant.

YANCEY-McDOWELL COUNTIES, N.C.: John Hall, Joyce Hall, Mark Hall, Robert Ruiz.

BUNCOMBE COUNTY, N.C.: Robert Bruce, William Bruce, Frank Chapman, Bill Duyck, Jean Gertz, Joyce Hall, Mark Hall, Gordon Mahy, Chip Nixon, Pam Porter, Gregg Ruiz, Robert Ruiz, Chris Rustay, Doris Sargent, Roland Sargent, Joe Schatz, Betty White.

BREVARD, N.C.: Glenna and Herb Ball, Lydia and Paul Barrett, Patrick Bohan, Kay and Ray Brown, Edythe Bull, Owens Davidson, Margaret Davis, Dick Garren, Joe Harris, Julia Harris, Curt Holland, Gail Holland, Susan and Walter Holland, Berneice and Hugh Hollifield, Karl Muhlinghaus, DeWitt and Helen Parsons, Gladys Reese, Theo Reeve, Hazel and Hervey Roberts, Robert Starr, Beth Wheeler.
