

Appendix 1. Species and Birds Counted During 62 years of Consecutive Spring Bird Counts in Guilford County. The total number of species seen is 234 + 1 taxon.

The Key for Status is: A - Accidental; M - Migratory; P - Permanent resident; R - Rare; S - Summer resident; V - Vagrant; W - Winter resident; Years seen: number of count years in which a species was reported; Abundance: lowest and highest number of birds seen in a given count year; 62-yr Sum: total number of birds per species summed across 62 years; Av: average number of birds seen across 62 years. This number is rounded to the nearest whole number. Species highlighted in gray were reported in five or fewer count years (n=57). Species highlighted in yellow were reported in all 62 count years (n=54).

Group	Common Name	Status	Yrs Seen	Abundance		62-yr Sum	Average
